PROJECT EXPERIENCE

Amazon Sales Analysis Dashboard

SQL · Python · Power BI · DAX · Power Query · Excel

[mishikabhandari/Amazon-Sales-Analysis-Dashboard](#)

- Queried and analyzed 100,000+ sales records using SQL joins, CTEs, and window functions to surface sales trends and customer purchasing patterns.
- Cleaned and explored the dataset in Python (Pandas, NumPy) to identify outliers, seasonality, and category-level performance gaps.
- Built an interactive Power BI dashboard with DAX measures and Power Query transformations, consolidating KPIs by product, region, and time into a single view.
- Translated findings into insights that could support inventory planning and marketing prioritization decisions.

Great American Coffee Taste Test Analysis Dashboard

SQL · Python · Power BI · DAX · Power Query · Excel
